

I am against the LPFM because I listen to our local K-love continually during the day. The music keeps my spirits up and the message is very encouraging to myself as well as my family! My little radio set here in Greencastle doesn't get much, but what I get with K-Love is worth so much! If you take that away with LPFM everyone I know will lose the station we share with each other: K-Love. Please, in the interest of those of us who appreciate good Christian radio, don't allow this new service to take control! Thanks!
